

Invivo Elixir Cold

invivo

Invivo Elixir Cold, biological Soil, Pond, Effluent and Wastewater Remediator is a highly concentrated mixture of beneficial cold water spores and microorganisms. These organisms produce a wide scope of enzymes, organic acids and polymers with enhanced capacity to degrade fecal coliforms, organic waste products, pond muck, residue, chemicals and sewage components found in wastewater, residue tanks and effluent at above freezing and freezing temperatures.

MARKET APPLICATIONS:

Wastewater, Ponds, Septic Tanks, Aerated Treatment Units

FEATURES

- Accelerates remediation in cold temperatures (Freezing and below freezing)
- Produces anti-freezing proteins that enable for survival in sub-optimal temperatures and season long bioremediation and muck
- Reduce wastewater BOD, COD, TSS
- Reduces Odor
- Improves startup and recovery

USAGE

This product is a 2 billion cfu/g.

0.5-1-Lb microbial dry concentrate material per 1-acre foot of water

(Best to treat ponds and tanks on a scheduled treatment maintenance program based on contaminant concentrations to be reduced)

PACKAGE SIZE

- 10Kg pails- 4oz, 8oz water soluble packs, or bulk powder
- Liquid

STORAGE

Invivo Elixir Cold should not be stored in direct sunlight or in temperatures in excess of 120°F. Please refer to the Safety Data Sheet (SDS) for proper handling procedures.

SHELF LIFE

Stable for 24 months

SAFETY & HANDLING

Product is safe for users and the environment. For detailed handling information, please refer to the appropriate Safety Data Sheet.
